Activity Report of TGS in 2024-2025

The Good Samaritan Social and Charitable Society (TGS) embarked on its mission to promote sharing and caring activities in November 2023. Over the course of the year 2024-2025, TGS actively engaged in various projects aimed at improving the lives of underprivileged individuals and communities in Kerala, India. Here is an overview of our major activities during this period.

Major Milestone – 80G Accreditation and 12A Registration

A significant achievement for the Society in 2024–25 was the successful **obtaining of 80G accreditation and 12A registration on 25 September 2024**. This milestone greatly enhances our ability to attract contributors and supporters for our **"Caring and Sharing" projects**, while also placing increased responsibility on us to manage resources transparently and effectively.

A **special appreciation is due to our Treasurer, Mr. V. G. Shaji**, whose dedicated efforts made this achievement possible.

1. Caring & Sharing-8: Housing project at Kulanada

One of the highlights of our activities in 2024–25 was the housing project at Kulanada for **Mr. K. K. Sasi, Kandankeril House, Njettoor, Kulanada P.O. – 689503**, who was referred by **Mr. Jose K. Thomas, Kulanada**. The plan was laid out in **February 2025**, with an estimated cost of **₹7 lakhs** for completion. The first installment of **₹1 lakh was prepared as a demand draft** in the name of the beneficiary and kept with the treasurer for release at the commencement of the project, **which was scheduled for 20 April 2025**.

A team led by **Mr. Shajan Mathew** and **Mr. V. G. Shaji** worked with **Mr. Jose, Kulanada** in evaluating the documents. The team, from February onwards, interacted with the beneficiary multiple times through several sittings, **encouraging and educating him on the mandatory requirement of producing valid land ownership documents**.

However, the beneficiary failed to produce the required documents even after three deadlines. Consequently, the **Executive Committee on 2 July 2025** decided to **stall the project and cancel the demand draft**. This delay also resulted in the loss of an opportunity to consider the **second applicant from Pampady**, who, by the time his case was reviewed, had already received support from another party.

The Society is now considering inviting fresh applications for housing projects to be completed during 2025–26.

2. **Caring & Sharing-9: Medical Support Initiative – Liver Transplant Assistance**

   TGS was able to facilitate support for **29-year-old Mr. Nirmal Premkumar, Thakidiyil, Anari, Harippad,** who required a liver transplant. Through a focused campaign led by the Society, we successfully channeled **₹10,000/- directly to the beneficiary's account** within a short period of time.

   This initiative reflects our commitment to mobilizing resources swiftly and extending timely support to individuals in medical emergencies.

3. **Caring & Sharing-10: Emergency Medical Assistance – Piravom**

   The Society extended immediate support to a **bed-ridden patient in Piravom**, allocating **₹30,000 from its own funds** to meet urgent medical needs. This timely intervention ensured that the patient and family received essential assistance during a critical phase.

4. **Caring & Sharing-11: Emergency Medical Assistance – Chottanikkara**

   The Society extended immediate support to a **patient in Chottanikkara**, allocating **₹25,000 from its own funds** to meet urgent medical needs. This timely intervention ensured that the patient and family received essential assistance during a critical phase.

5. Caring & Sharing-12: TGS Education Support Initiative – Wayanad Post-Disaster Response

In the aftermath of the devastating landslide in Wayanad, TGS stepped forward with a comprehensive plan to support the education and mental well-being of affected students, particularly those from the **GLPS Puthumala cluster and Vellarmala GHSS**.

Over the course of nearly a month, TGS worked diligently to prepare a **well-structured Education Support Scheme** combining academic tuition, teleclassroom technology, and psychological counseling. The initiative aimed to ensure that teenagers—most affected by such disruptions—could continue their education and receive emotional support during this difficult time.

Efforts Undertaken by TGS

- **Plan Development**: Designed a model integrating online classes, life-skills sessions, and mental health interventions.
- **Technology Setup**:
  - Arranged sponsorship for tablets and computer devices.
  - Initiated discussions with **BSNL** to provide reliable connectivity.
  - Secured teleclassroom software through corporate partnerships.
- **Human Resources**:
  - Identified qualified teachers for subject coaching.
  - Engaged with **IMHANS, Kozhikode** to involve psychologists and social work volunteers.
  - Planned to appoint local social workers and computer technicians for last-mile implementation.
  - Proposed involving BCA/MCA students from the locality for technical support.
- **Government & Local Engagement**:
  - Held discussions with **Wayanad District Panchayat** and the **Deputy Director of Education (DDE)**, who in principle agreed to the initiative.

- Coordinated with **GHSS Vellarmala officials** for ground-level facilitation.

Outcome

By the end of the preparatory phase, all core elements—**hardware, connectivity, software, teachers, psychologists, and coordinators**—were lined up for launch. However, before the program could be commissioned, the Government decided to accommodate students of **the Schools** in neighboring schools. Consequently, the TGS initiative was not rolled out, though the groundwork demonstrated that **a rapid, coordinated education support system can be built within weeks in disaster-hit regions**.

Projects for the year 2025-26

1. Caring & Sharing-12: Housing project

TGS aims to construct one house for an underprivileged family in each of the 14 districts of Kerala in 2025. The estimated cost for each house is 8 lakhs INR, totaling INR 1,12,00,000/- (1 crore and 12 lakhs). This funding will be sourced through sponsorships and donations. Beneficiaries will be selected without regard to their caste, religion, or ethnicity, and they will be chosen from a list of eligible candidates who own land ranging from 3 cents to 5 cents.

2. Caring & Sharing-13: Education Sponsorship Program 2025–26

Looking ahead, TGS aims to implement a **student education support program** during the academic year **2025–26**. Under this initiative, the Society will sponsor the complete education of **one student in each quarter**, focusing on children from underprivileged families across Kerala.

The estimated project cost is **INR 2,00,000**, which will be made possible through the support of **four committed sponsors**. This program reflects our vision of empowering young lives through education and creating long-term impact for families in need.

3. Caring & Sharing-11: Medical Support Program 2025–26

In addition to educational support, TGS plans to launch a **Medical Support Program** during **2025–26** to assist patients from underprivileged families across Kerala in meeting essential healthcare needs.

The project will provide:

- **Dialysis support – worth ₹25,000 per quarter**
- **PET Scan support – worth ₹25,000 per quarter**

The total estimated cost for the initiative is **₹2,00,000**, which will be met through contributions from **10 dedicated sponsors**. This program underscores our commitment to extending care beyond academics, addressing the urgent medical needs of the most vulnerable.

4. Caring & Sharing-14: Support for Itarsi Balagram 2025–26

As part of its social outreach, TGS aims to extend support to **Itarsi Balagram** with a contribution of **₹25,000 during 2025–26**. This initiative will be realized with the help of **five committed sponsors**, reflecting our continued effort to reach vulnerable communities beyond Kerala and strengthen our mission of care and support.

Conclusion

The year 2024–25 was a defining phase for TGS, marked by both **tangible impact and strategic milestones**. From securing **80G accreditation and 12A registration** to extending **timely medical assistance** and preparing **innovative education support models**, the Society demonstrated its capacity to mobilize resources, build partnerships, and respond compassionately to community needs. While not all initiatives could be commissioned as planned, the groundwork laid in Wayanad and elsewhere highlighted the strength of our preparedness and commitment.

Looking ahead to 2025–26, with ambitious projects such as **housing for underprivileged families across Kerala, education sponsorships, medical support schemes, and outreach to Itarsi Balagram**, TGS is poised to expand its impact with greater reach and accountability. These efforts will be possible only through the continued generosity of our sponsors, well-wishers, and the dedication of our members.

As we move forward, we reaffirm our mission of **"Caring and Sharing"**, striving to bring hope, dignity, and support to those who need it most.
